Shipping Instructions

Customers in Mid-Western, Eastern and Southern states ordering Novelty Daffodils and Iris would do well to specify shipment of these items by express. The time saved in transit more than off-sets the small added cost, considering the value of the shipment.

For distances up to 1500 miles, shipment may be made by fast auto freight. The freight rate may be slightly higher for long hauls but may be justified by the time saved.

If at shipping time we have no specific shipping instructions, we will ship whichever way we consider to be to the best interests of the purchaser.

Daffodils listed only in the No. 1 Double Nose size, can be supplied only in this size.
